

# Important car parking information Albany Stadium Pool

Our facility is situated in the grounds of QBE (North Harbour Stadium).

The stadium hosts many sporting events over the course of the year and some of these events will affect access to our facility and the availability of carparks.

Outside our facility are 30 designated carparks. When a big event is being held that we know will affect the availability of car parks we will block off our carparks from the rest of the stadium's with barriers and these will be prioritised for members (facility and swim school). Additional parking can be found in nearby Hooton reserve.

When road closures are in place our car park can be accessed only from Don Mackinnon Drive. There will be no access from Stadium Drive.
